

CHEMSTORE MANAGER™ DEMO

This web demo of CHEMSTORE MANAGER™ contains only one (1) chemical (**formaldehyde**) selected among the 7 800 + of the real database. *

Instructions

- Set the resolution of your monitor at **1024 X 768** pixels.
- Double click on ChemstoreManager.zip or ChemstoreManager.exe
- To find the storage code of formaldehyde, type `` **formaldehyde** `` or **50000** (CAS No) in the appropriate box and click on the **SEARCH** button.
- Then click on the **STORAGE MODE** button. You will get the following information :
 - The alphabetical storage code of this product or substance.
 - A list of incompatible chemical categories.
 - The suggested storage mode for this chemical (refrigerator, armoured cabinet, etc.).
 - A list of precautions to observe.

Storing your chemicals using the CSM™ storage code is easy. Apply a label with the appropriate code (A, or B, or C, etc.) on the container (bottle, cylinder, drum, etc.) and its storage support (shelf, cabinet, etc.).

For additional information, please consult the **HELP** file.

*** To receive the complete list of chemicals included in in CHEMSTORE MANAGER™, please contact us.**
